

GPS & Activity Tracking for Cats & Dogs

34% of pet owners lose their cat or dog at least once.

About 6 million animals enter animal shelters each year - in the US alone.

More than 1 million people around the world trust us to make sure that never happens to their pet.

Highly recommended

We have been using tractive for a couple of years and really sing its praises. Besides being so reliable, the app is feature rich and the device gives us peace of mind knowing we can allow our sighthound off-lead (whilst distractions present themselves). The device is tiny however it is also often commented on by other curious dog owners - of course we are all too happy to explain. For us it has been pivotal in building trust with our dog and we wouldn't ever leave the house without it!

The app is well designed and easy to...

The app is well designed and easy to navigate. The best features I have found is the live tracking and the fact that I can share it with my niece so she can receive notifications about Marley and live track him while I'm away at work. Gives me peace of mind knowing my niece and I can both keep track of him 24/7

Our dog runs off

Our rescue husky/malamute mix has a tendency to chase animals into the woods. We live in the country and he can run a mile or more into the forest. The Tractive allows me to track and retrieve him. It's a godsend. Highly recommended!

Very accurate data and great price

One of my boys disappears for most of the day and is a nightmare to get in. I bought the Tractive collar and subscription and was amazed not only by the very reasonable price but the accuracy of the live data of where my cat is. The monitoring data on movement and sleep patterns is really useful but knowing that this system is updated in minimal delay really helps track my fur ball down quicker and know he is safe. I cannot recommend it enough to any pet owner!

Huge relief!

Huge relief!! I have 3 rescue dogs and a lot of land however they still happily escape on a regular basis. I can now locate them instantly whenever I need to. Tractive has given me completely correct location every time

Instant location and waterproof

We switched to Tractive after using a competitor brand that claimed to be waterproof. Not only is Tractive actually waterproof, it triangulates position immediately, while we had to wait 5 minutes to get a position update in our previous brand.

Finally peace of mind

We have a kitty that loves to wander. Far. This tracker has given us piece of mind knowing where she is. Have used customer service several times once to get a better understanding of how to use the app and once when tracker seemed off line. Excellent service snd follow up. Recommend this product highly

Why pet owners
love **Tractive**
GPS trackers

Pet Experts Trust Tractive

“ Tractive is so valuable and important to keeping our dogs safe, we’ve now made it part of the whole adoption process. ”

Dogs In Better Spots (DIBS) Rescue,
Ottawa’s largest rescue dog fostering organization, transporting stray dogs from Mexico to forever homes in Canada

“ I can recommend Tractive to every dog owner who cares about safety and health of their four-legged friend. I use it myself for my dog Emma and I am thrilled. For me, it's clearly the #1 in GPS tracking for dogs. ”

Martin Rütter,
Animal psychologist and celebrity dog trainer

“ Having Tractive for Sheba’s safety gives me peace of mind, plus I can see exactly what area was covered during our search and rescue. It is a necessary tool for what we do and they are greatly appreciated, thank you. ”

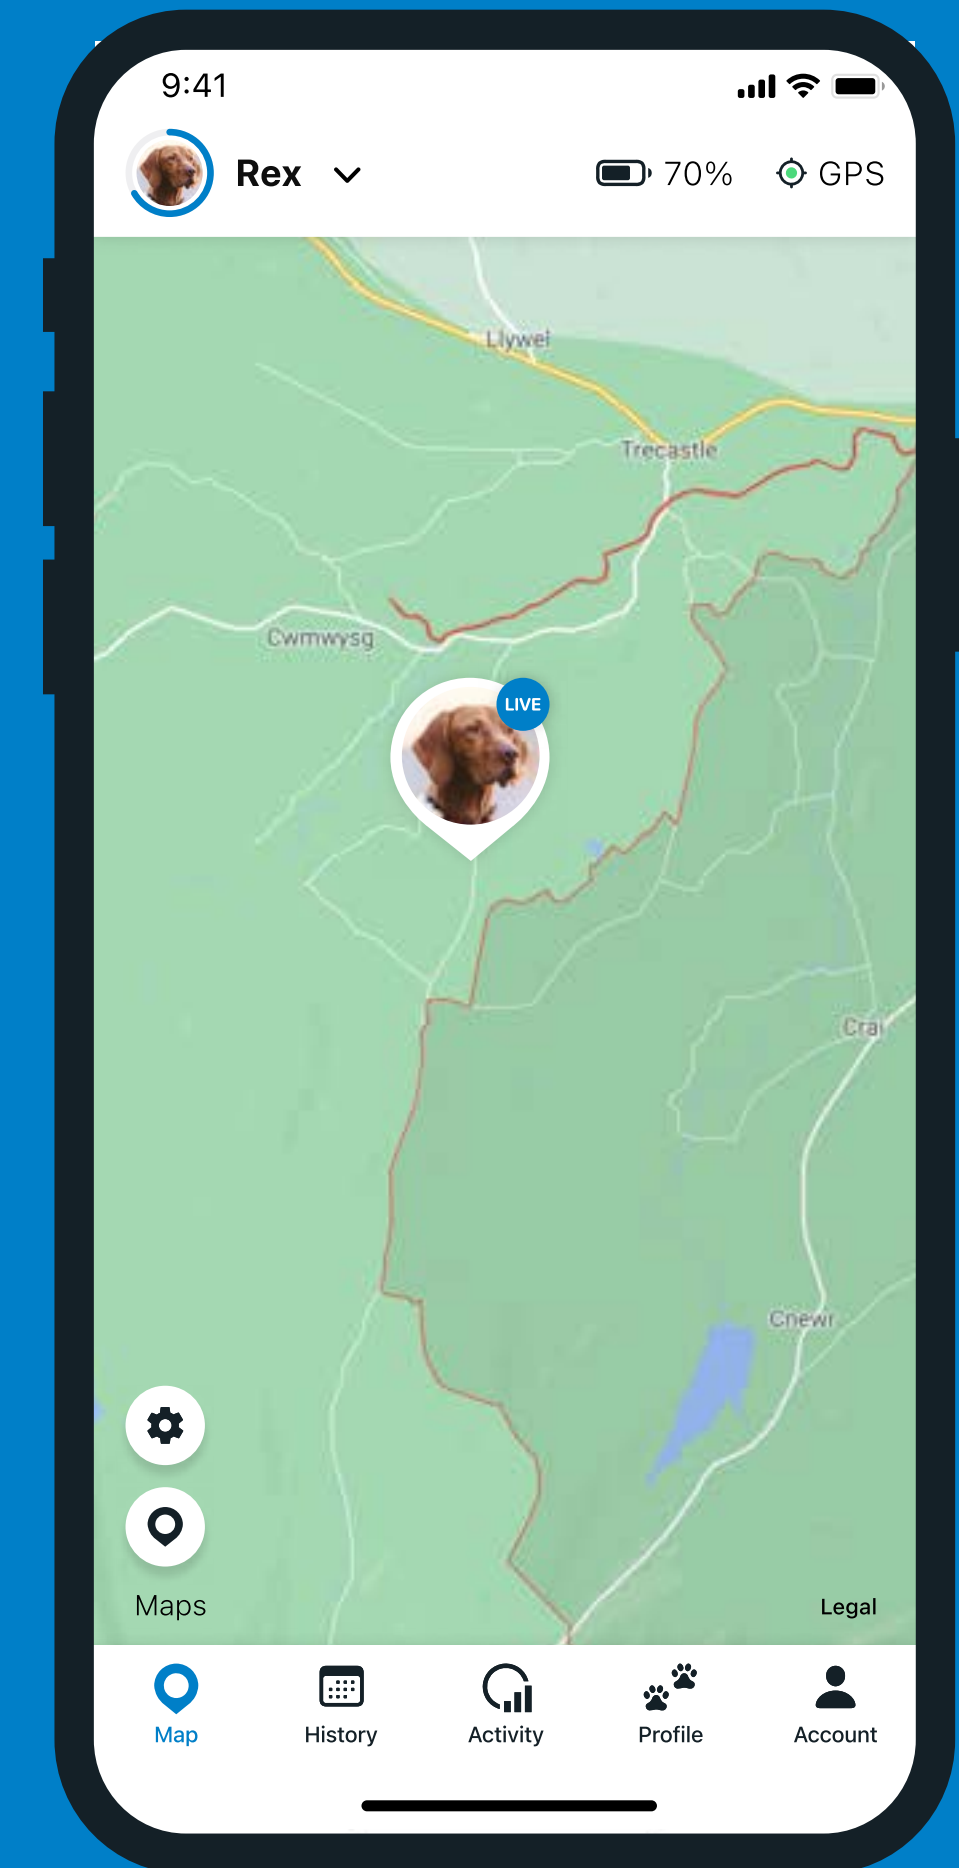

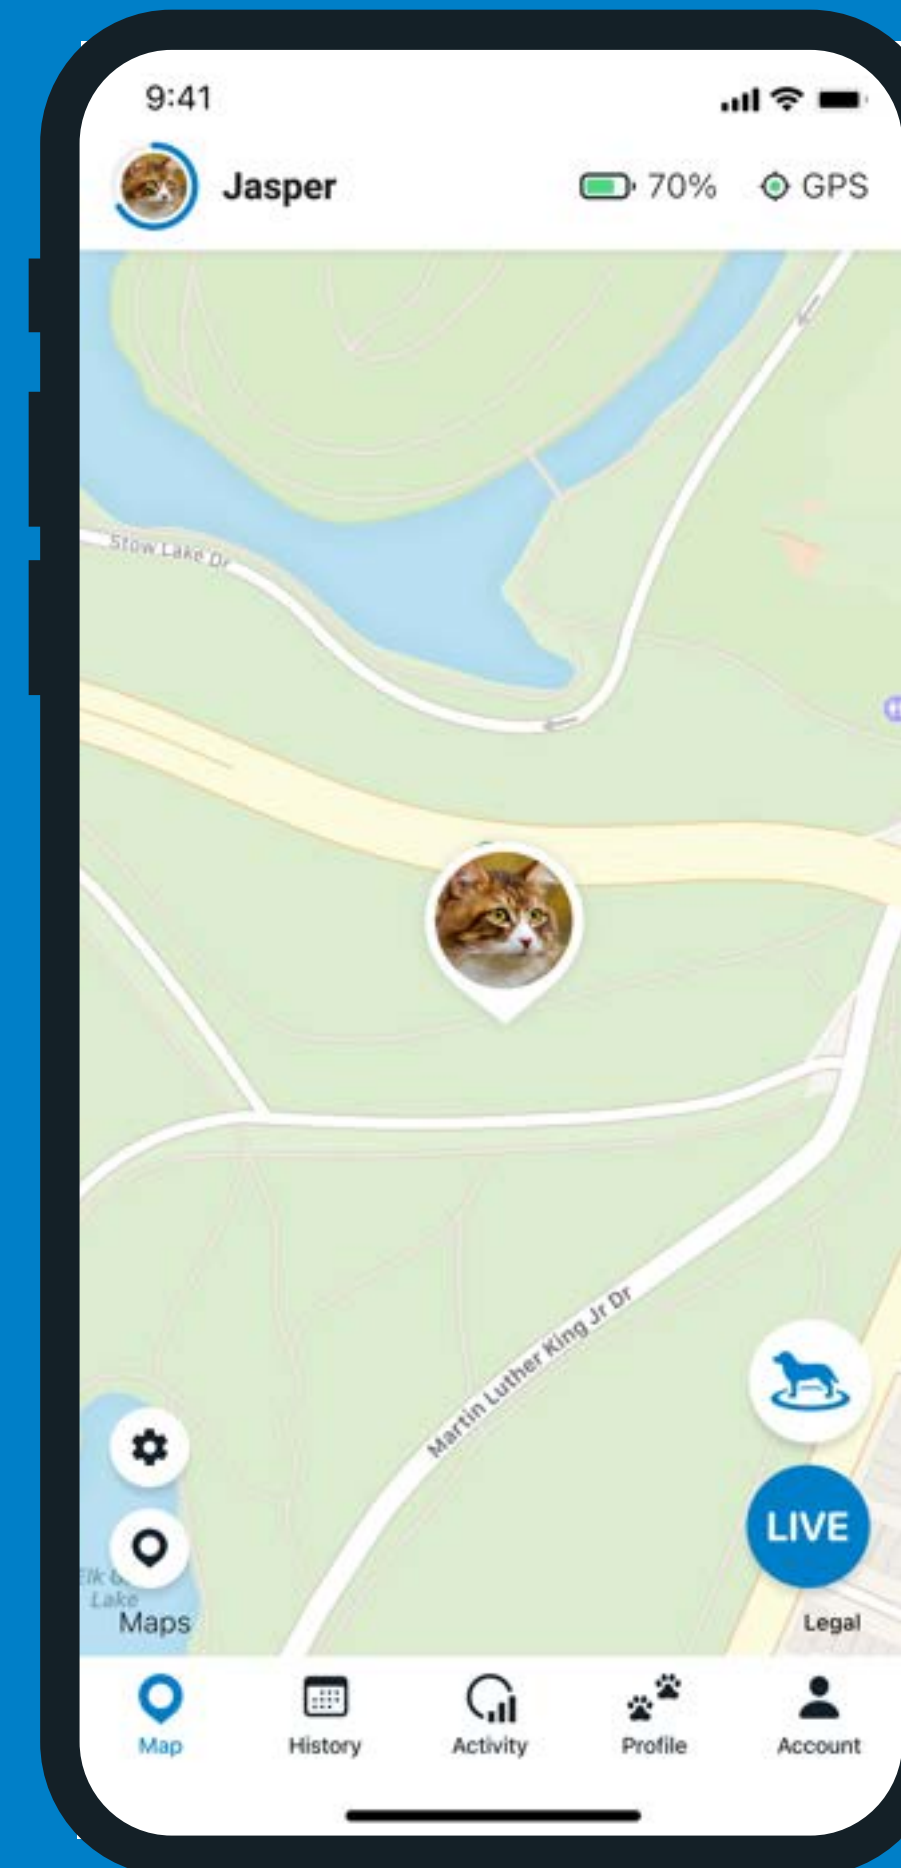

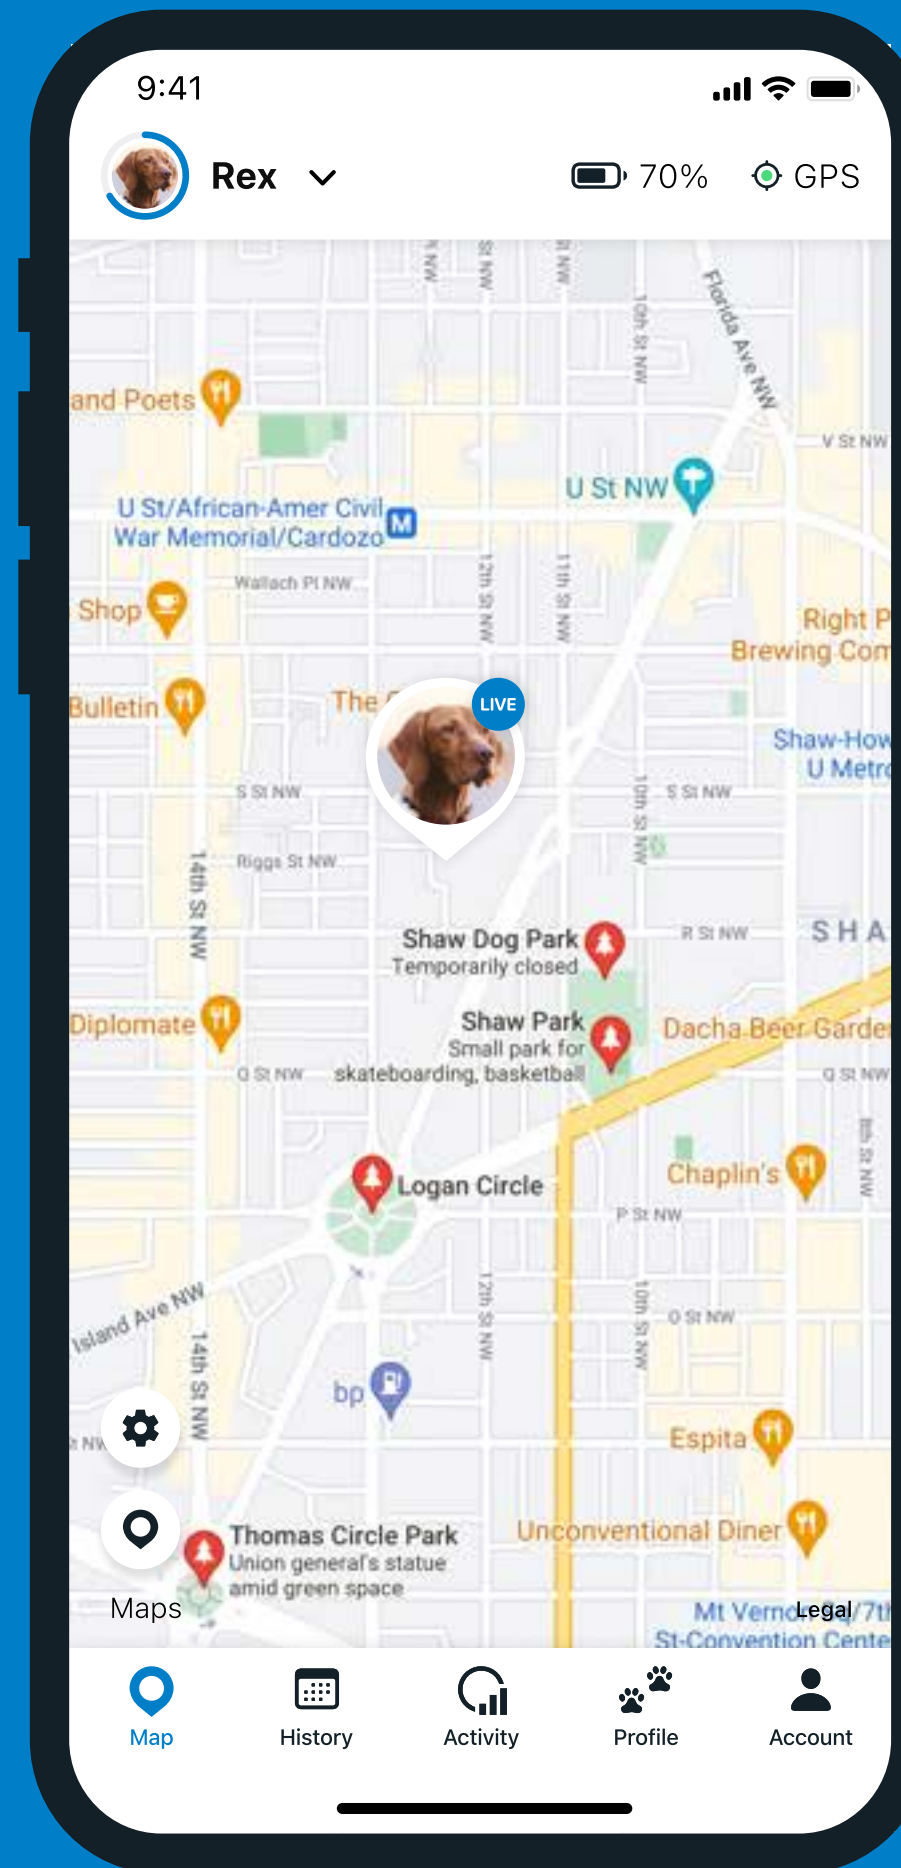

ATT Search and Rescue,
Canine search and rescue training and response

Meet the app

LIVE mode

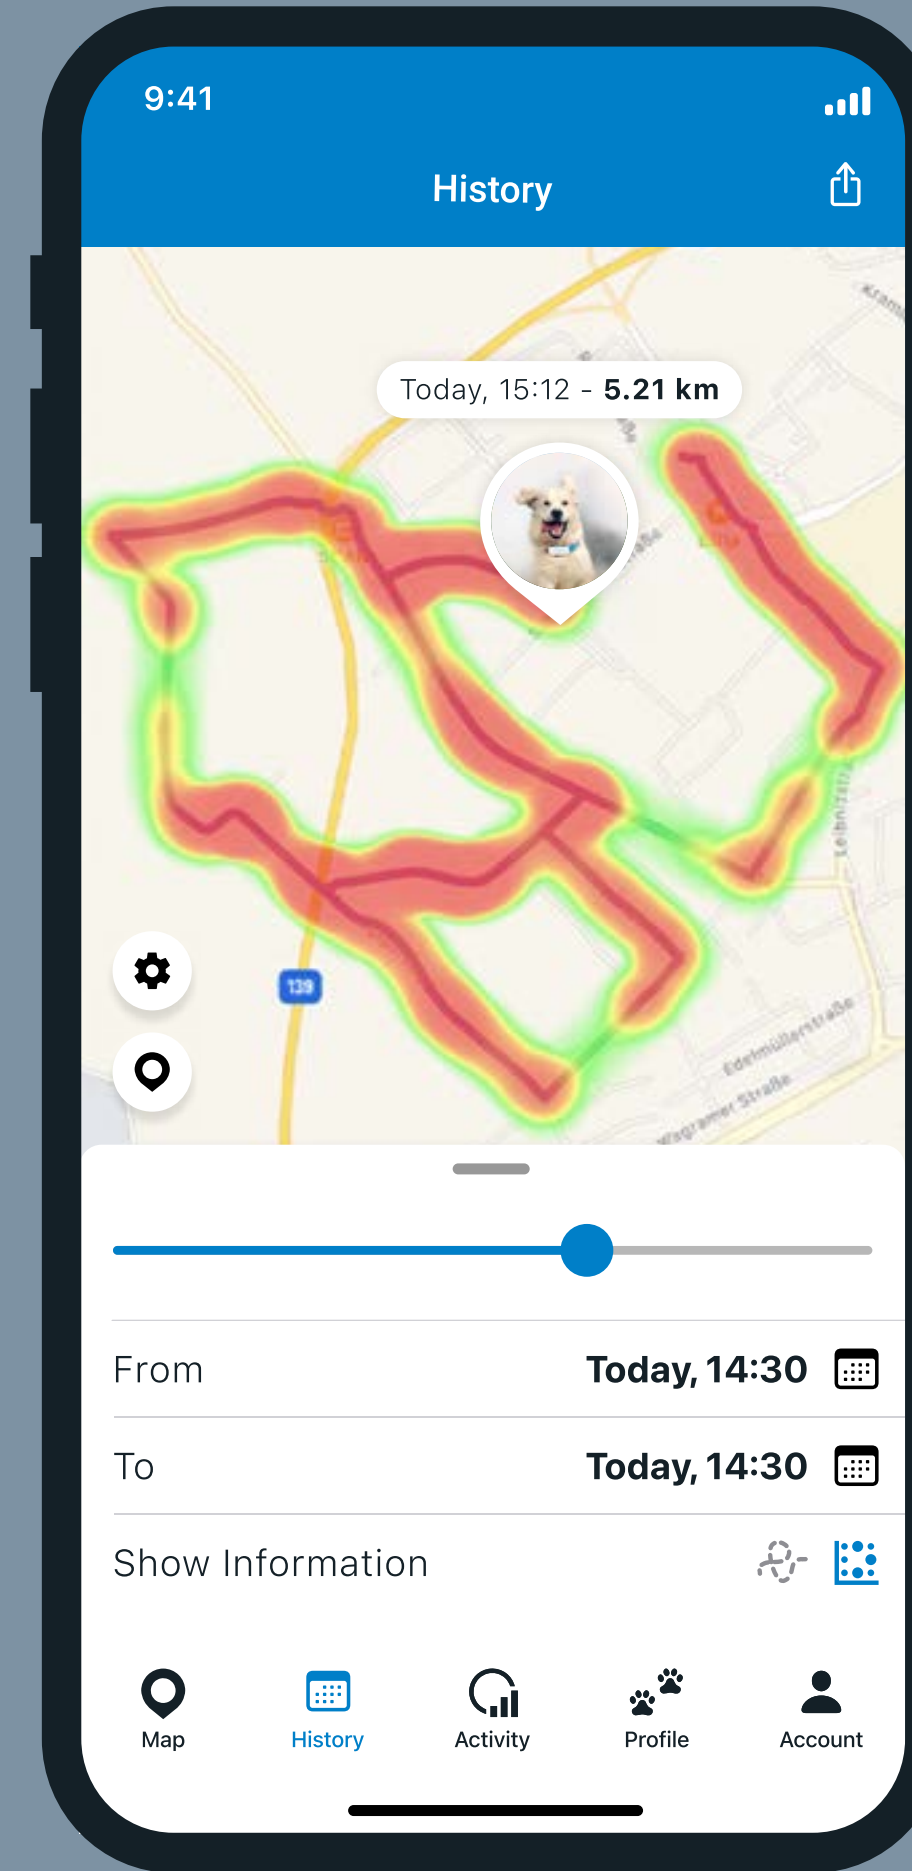

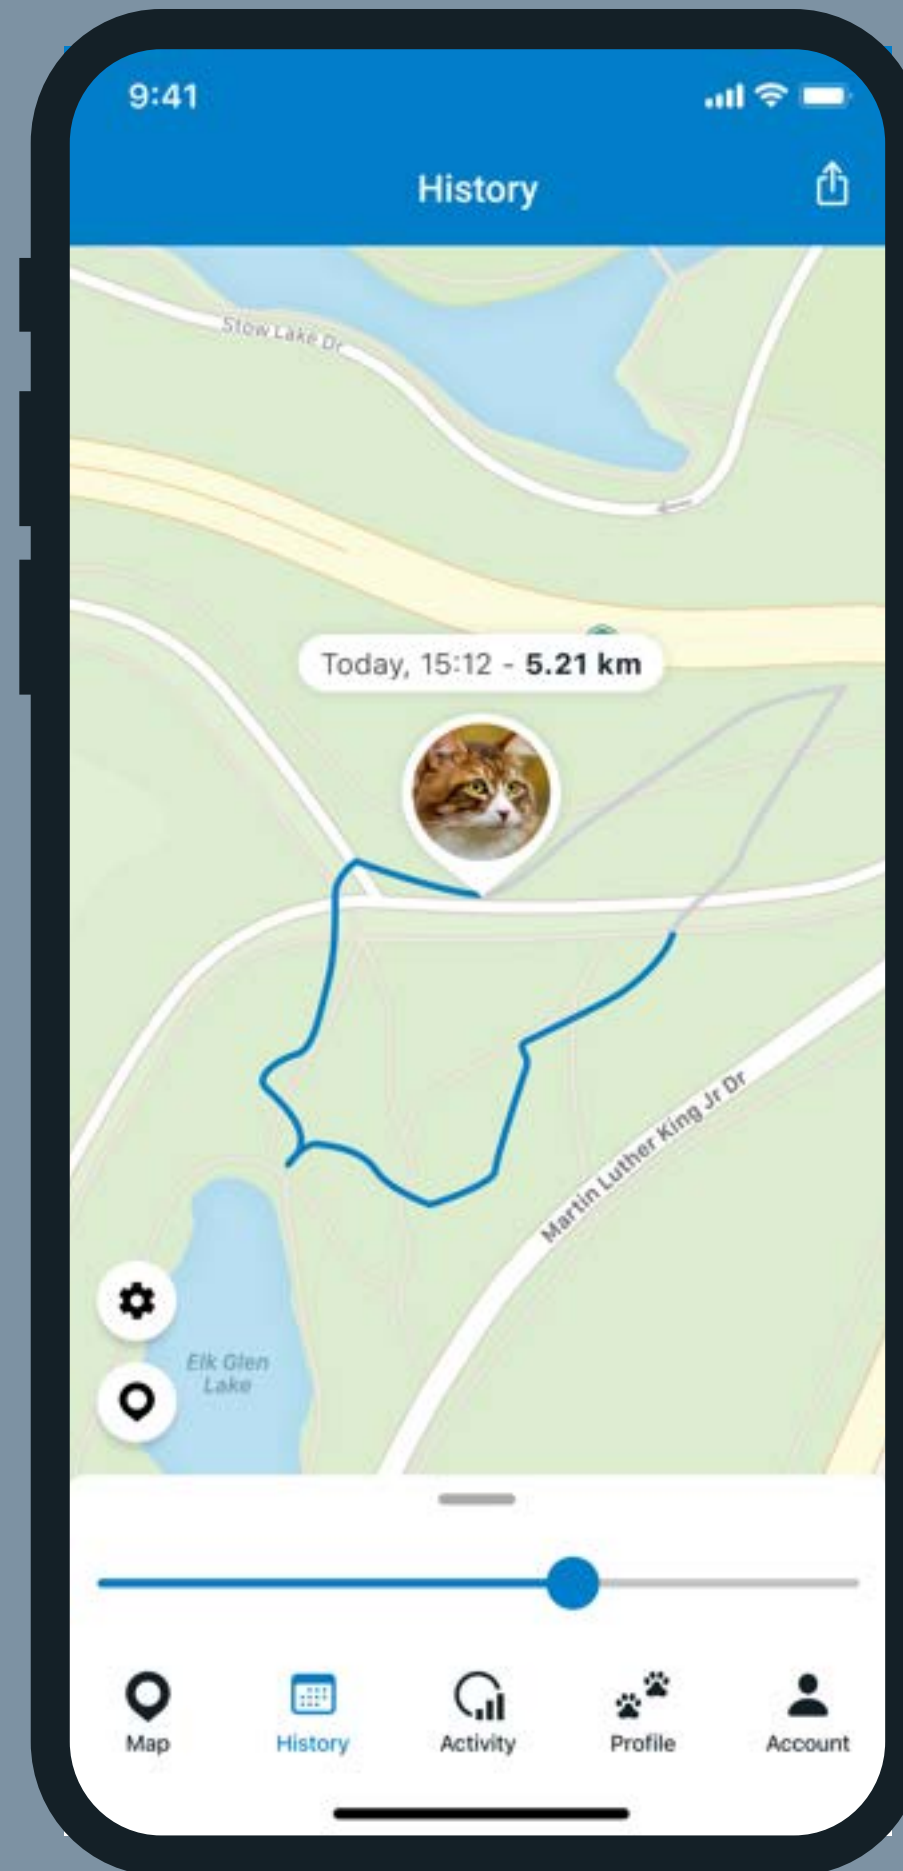

Follow your cat or dog's every step with location updates every 2-3 seconds. Make sure they're safe... or remotely join in on their adventures!

Meet the app

Location History & Heat Map

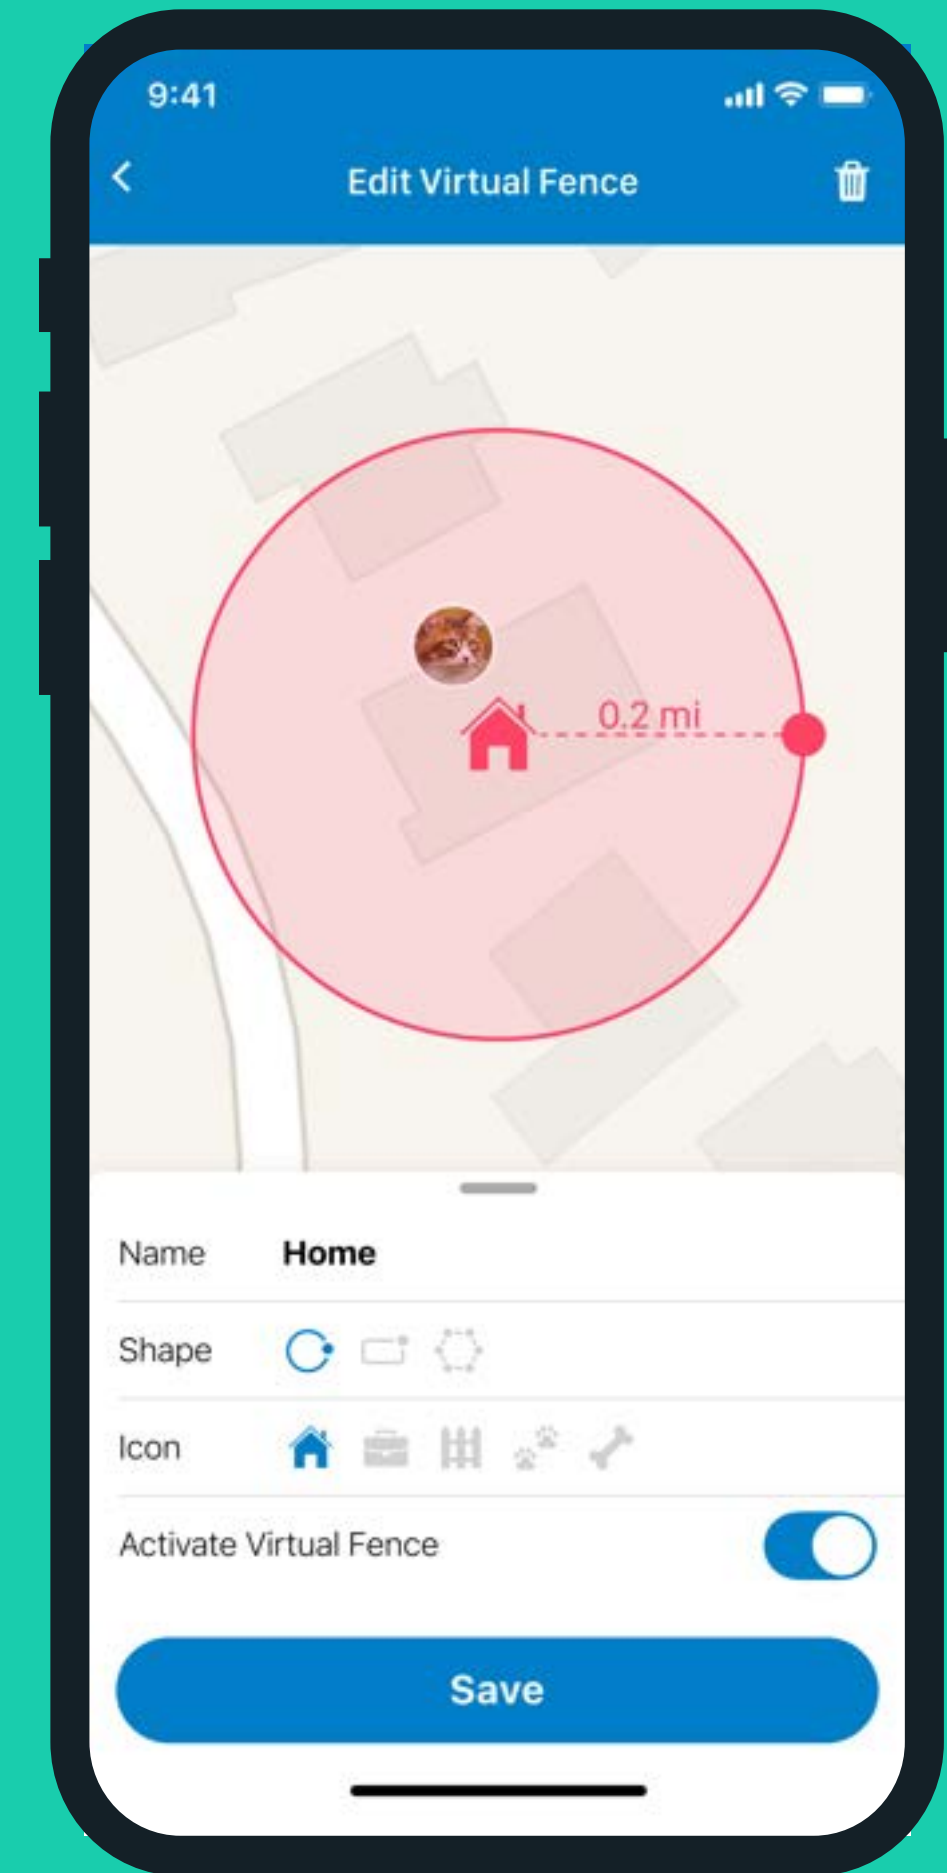

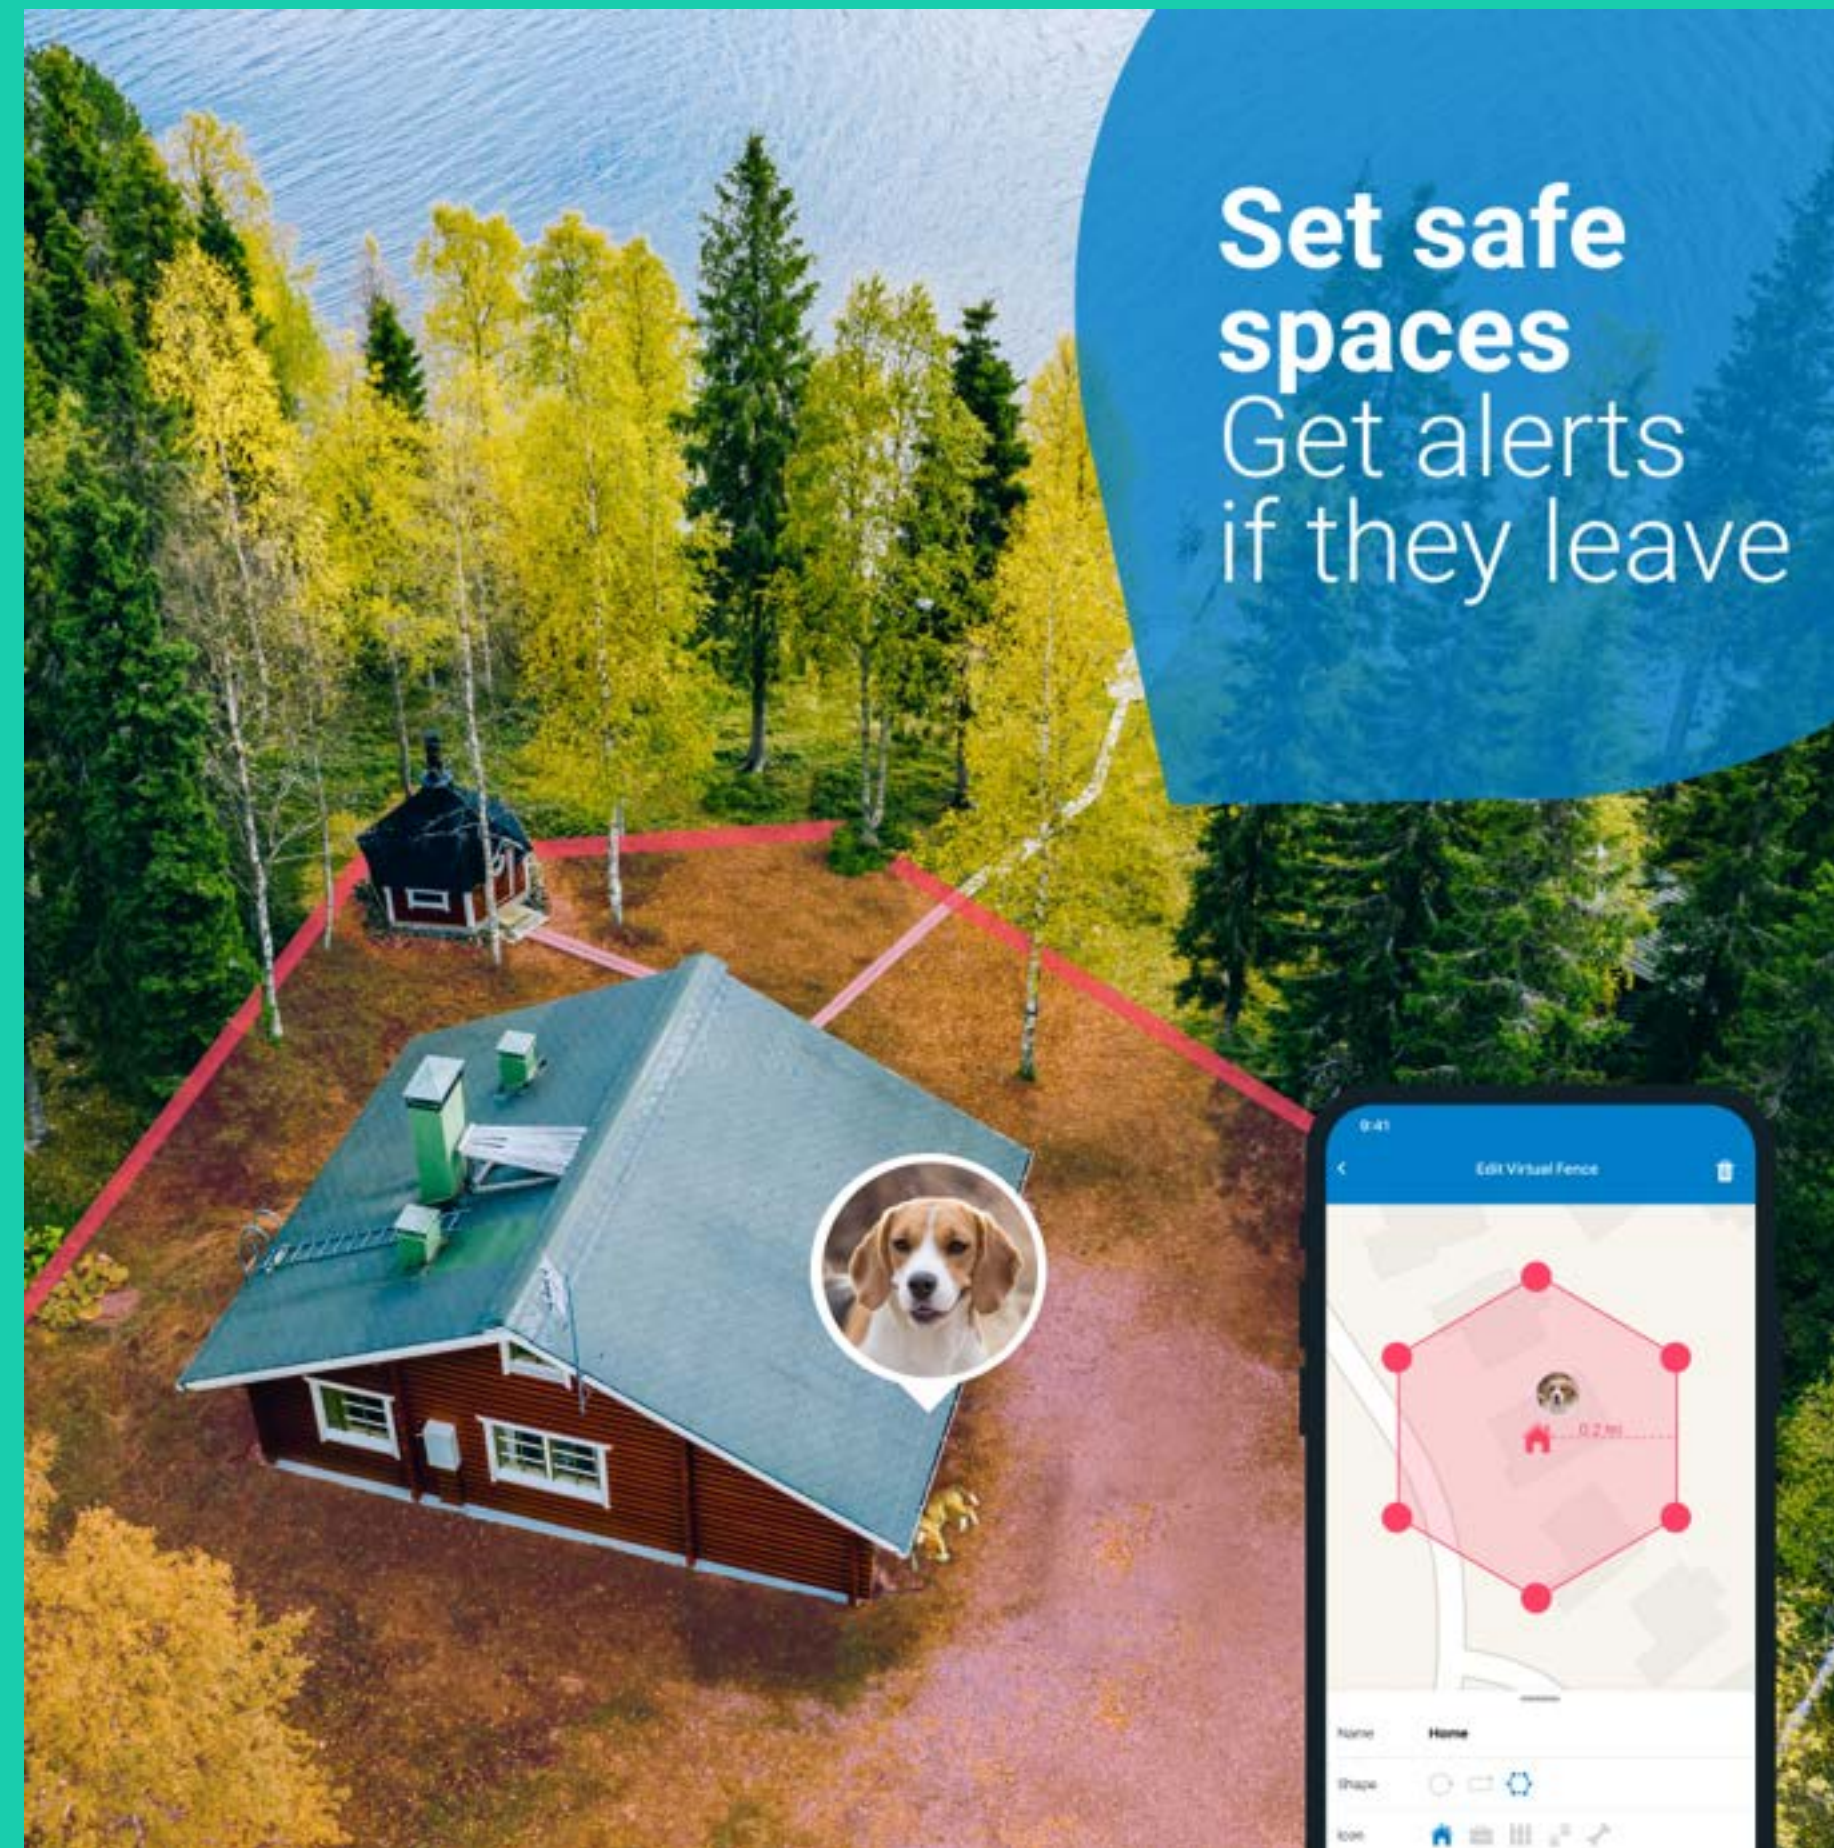

See where your pet has been for up to the last 365 days. Discover their favorite spots, and how your cat or dog spends their day.

Meet the app

Virtual Fence

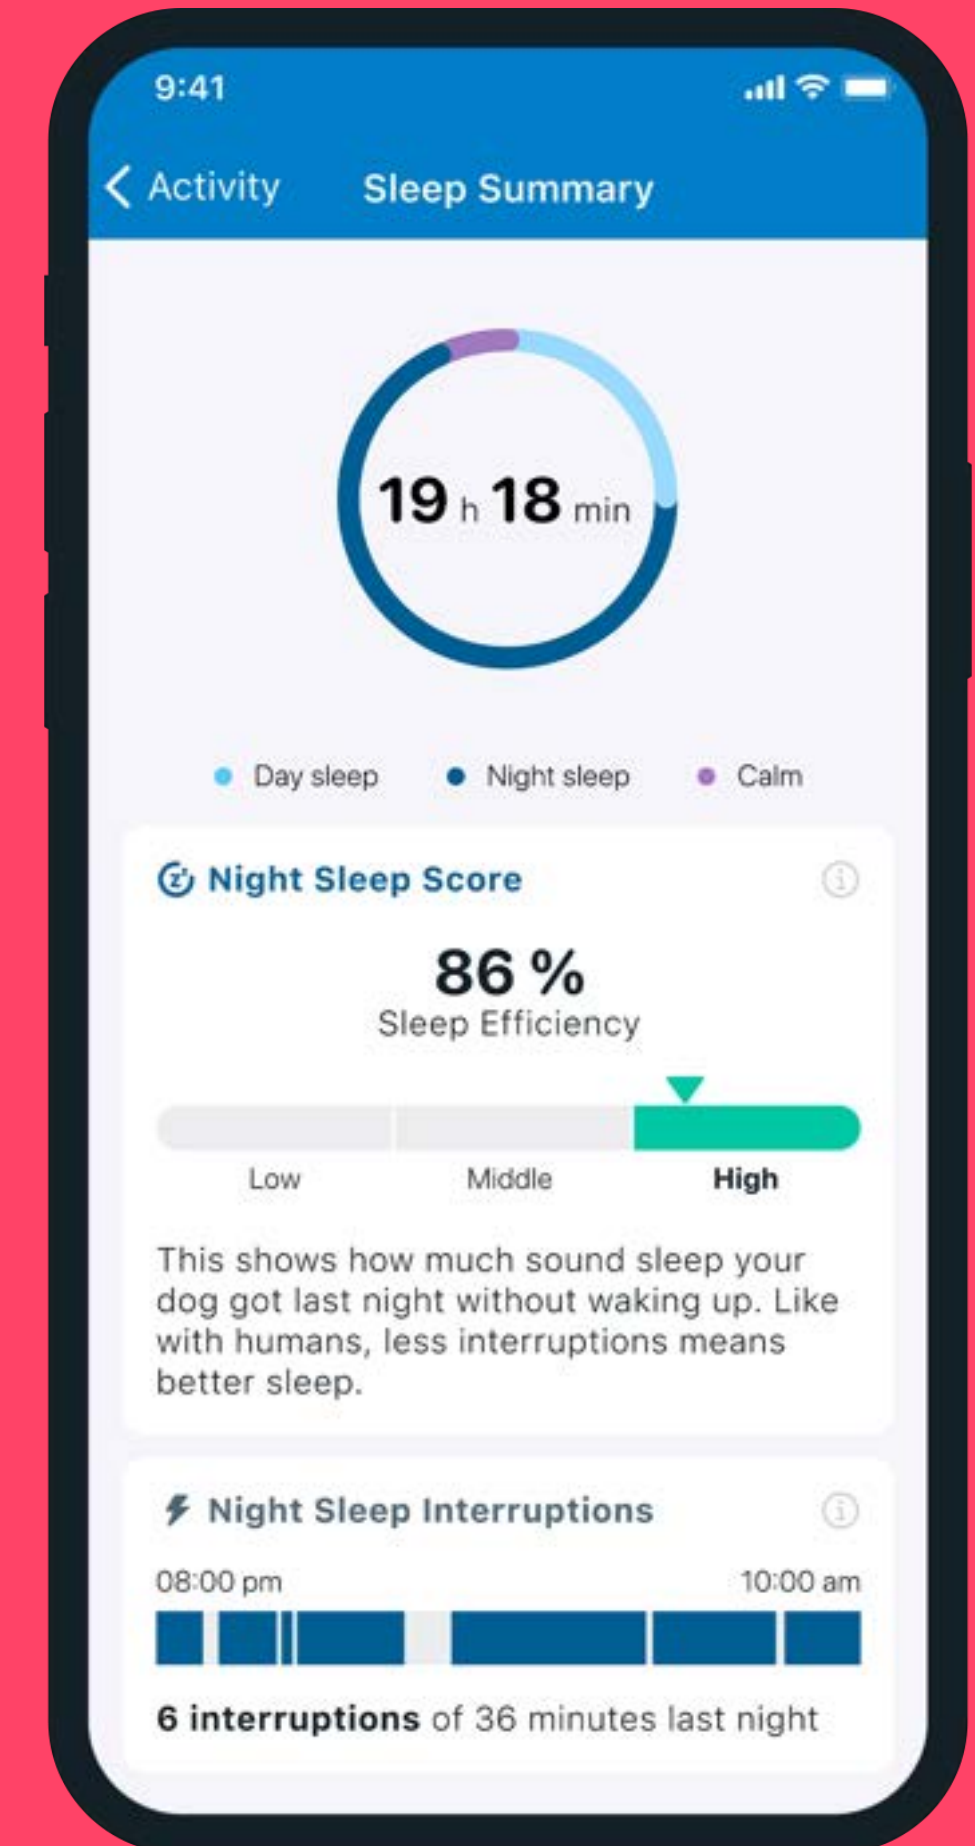

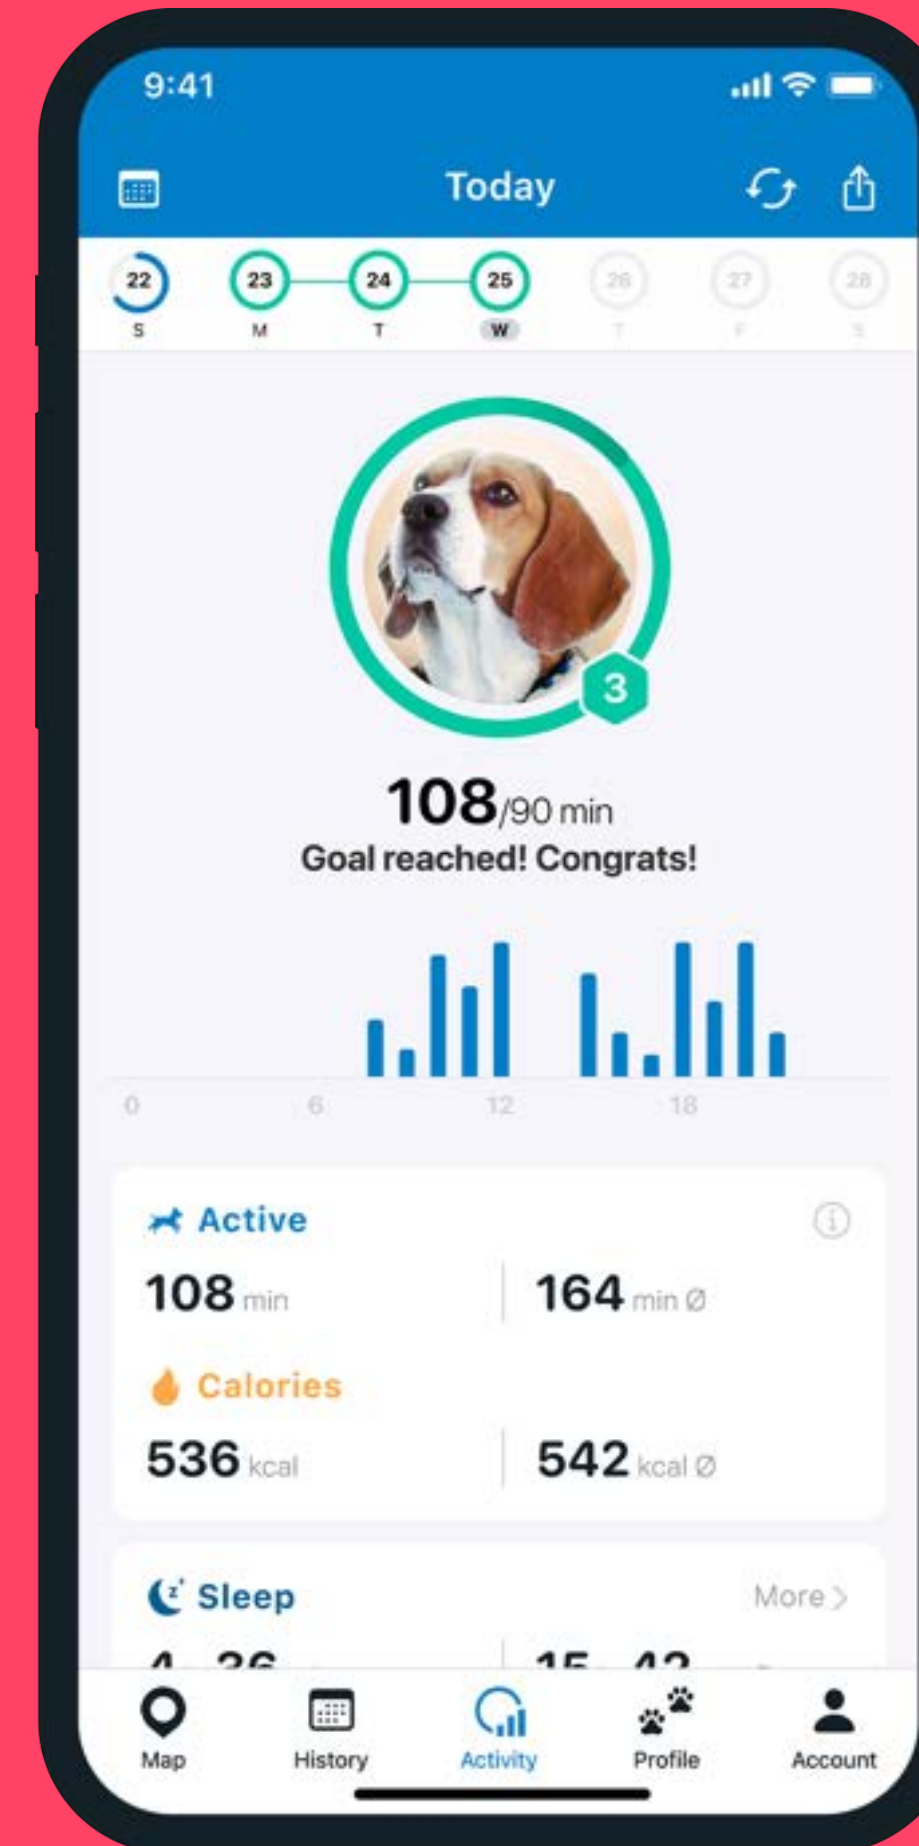

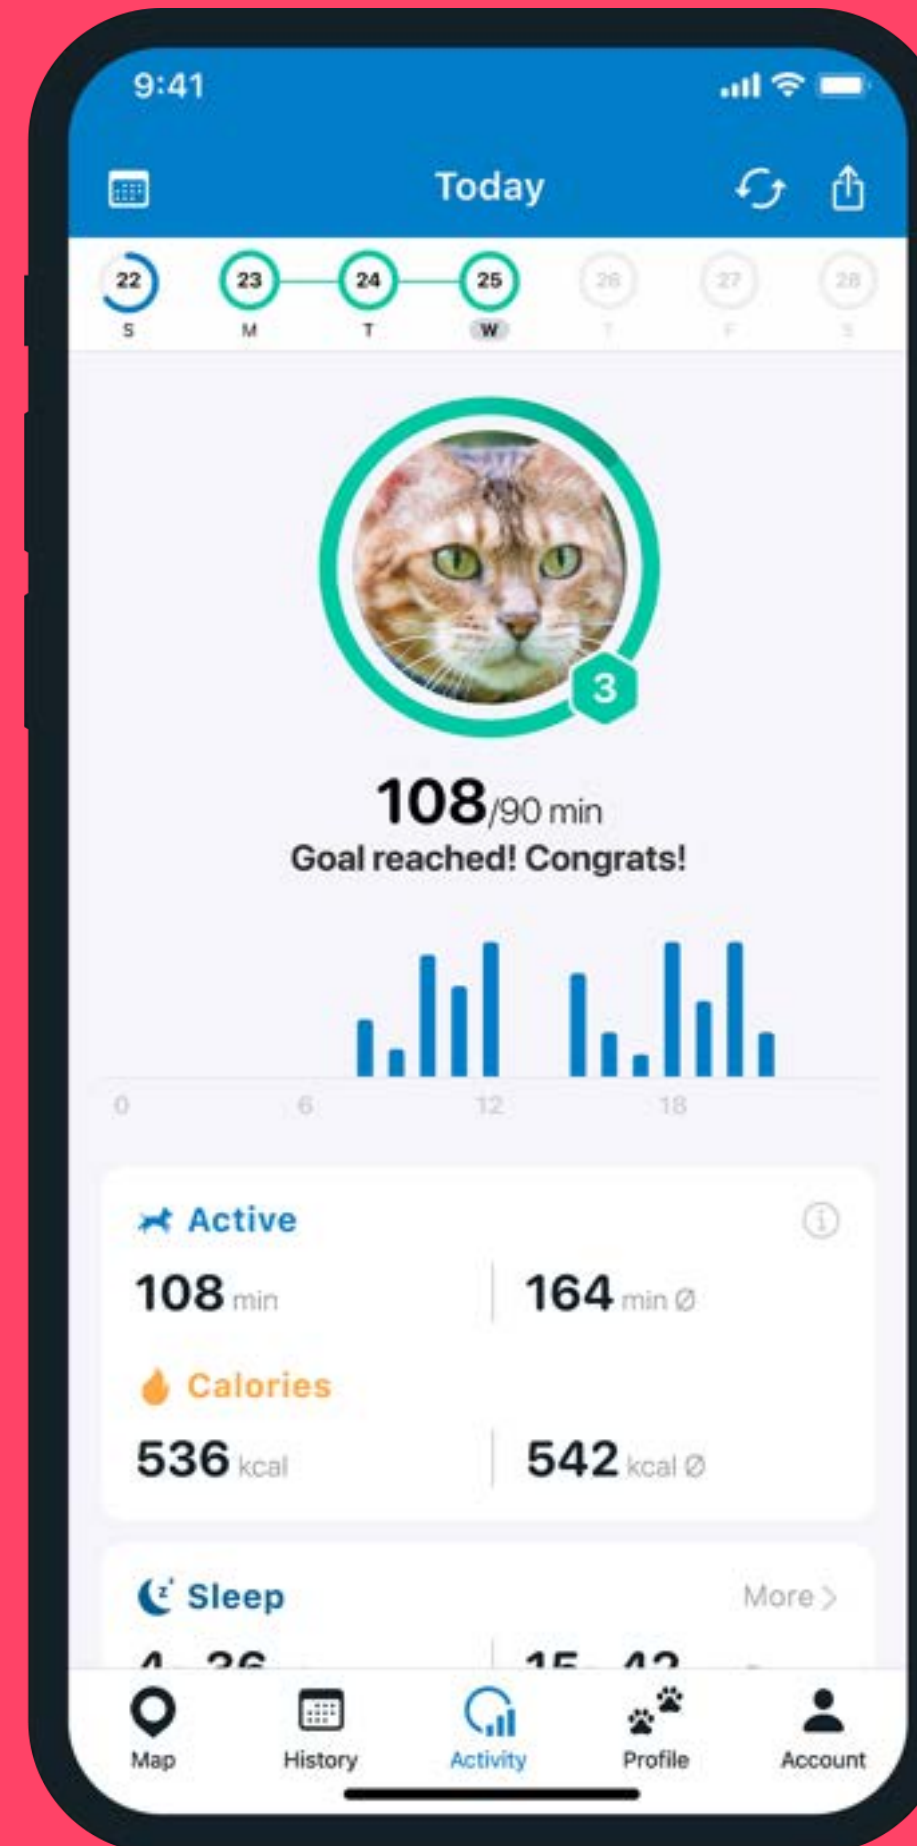

Set safe spaces, like your yard or your neighborhood. Get alerts in case your pet wanders a bit too far.

Meet the app

Activity and Sleep Monitoring

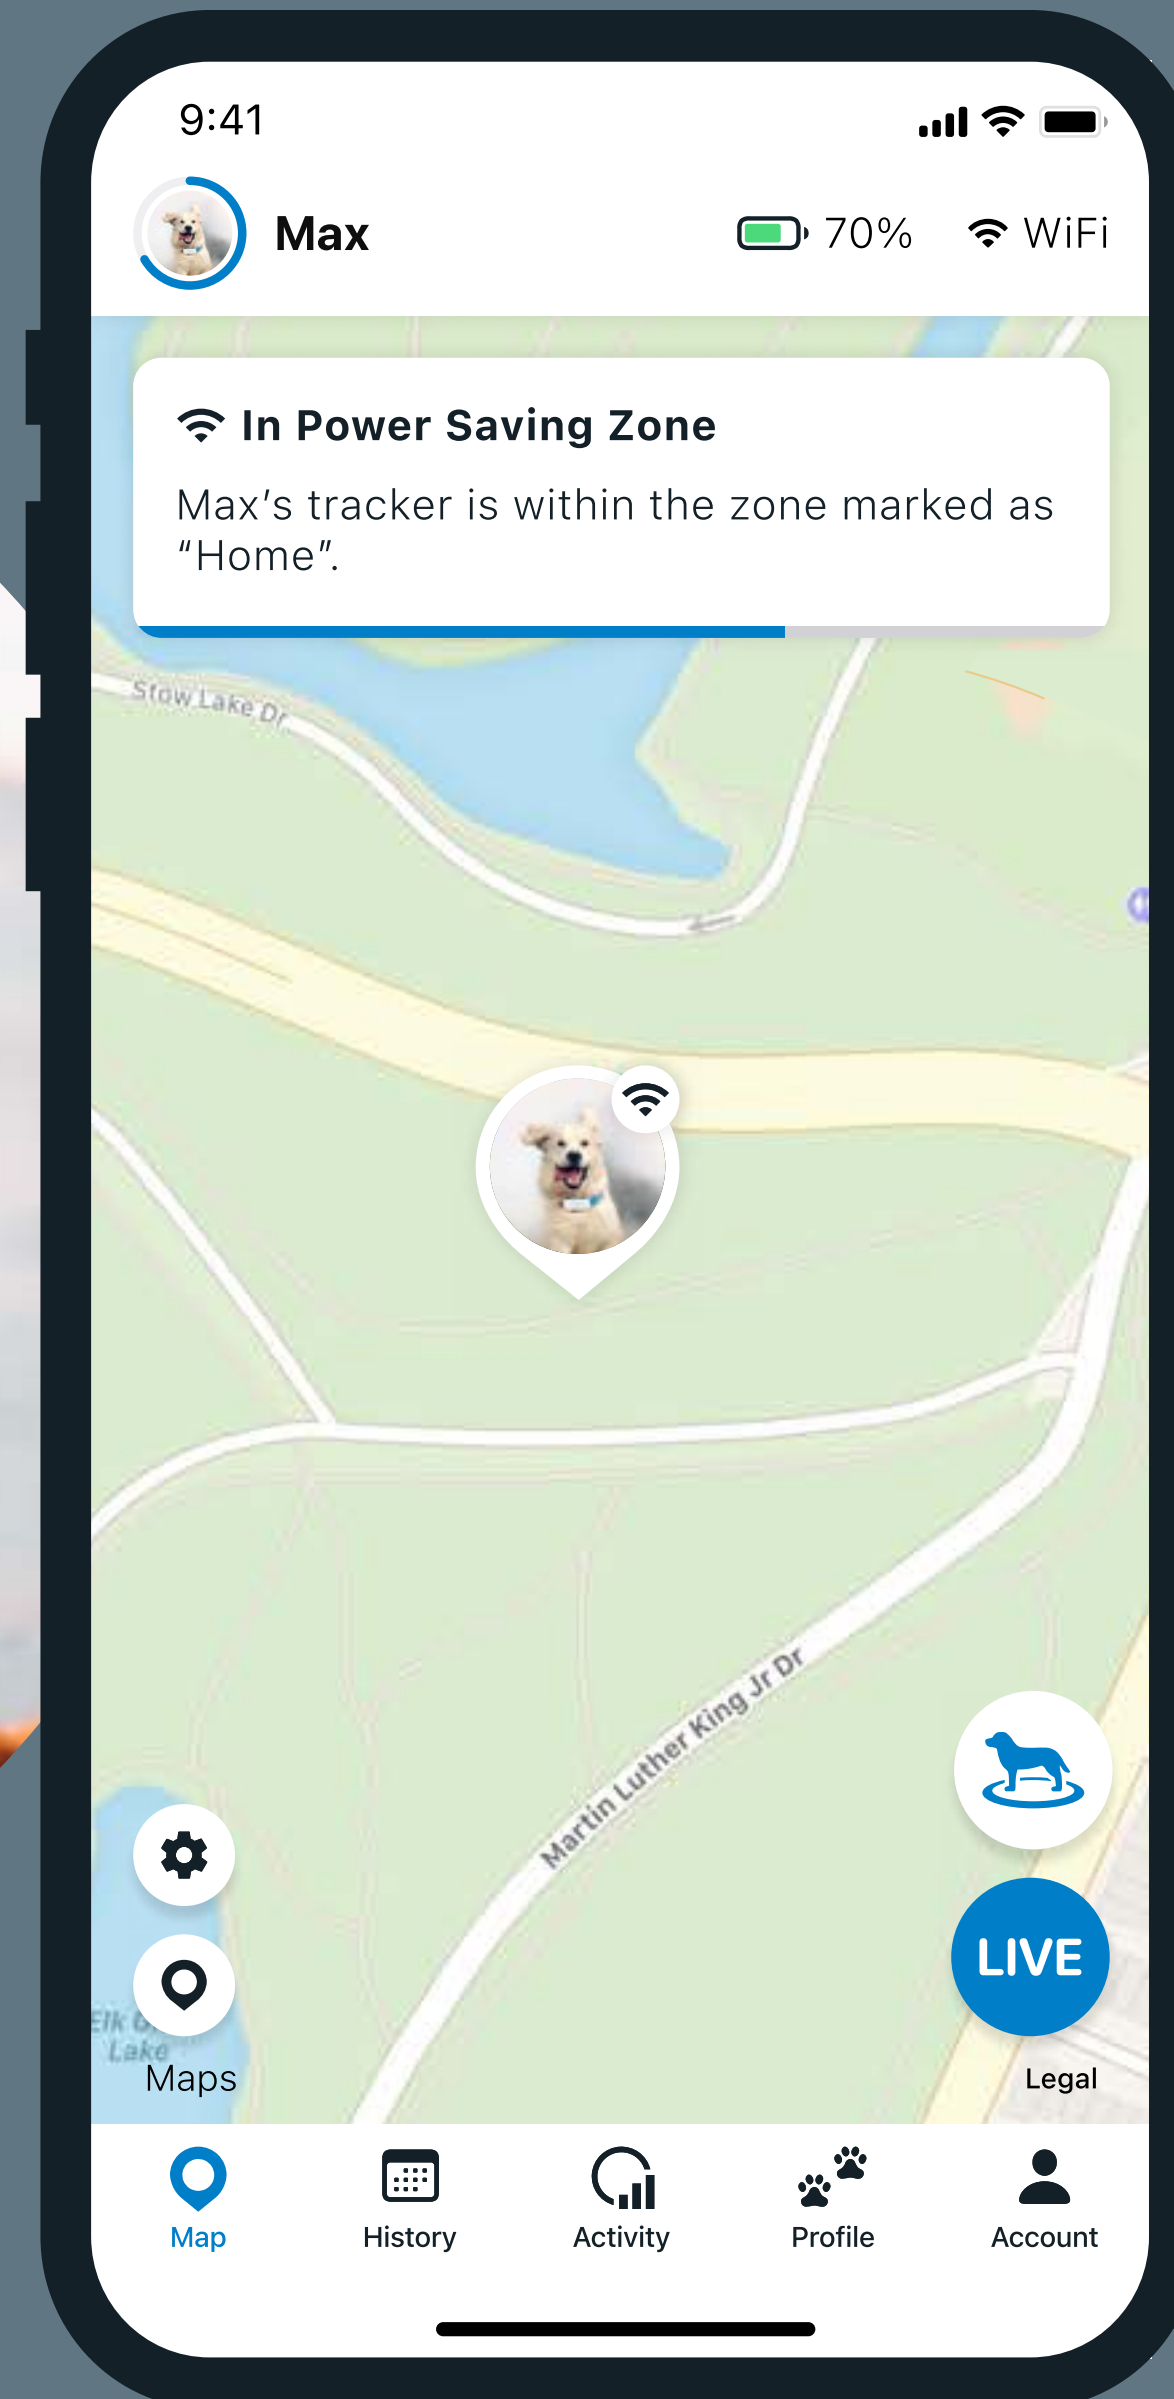

Know how much active and rest time your dog or cat gets. Spot behavior changes that might signal a health issue. Compare activity with similar dog and cat breeds worldwide.
